Content:

Upgrading Instructions: 2

New Features:..... 2

Problems Fixed: 2

Known Issues: 3

Related Documentation: 3

Revision History and System Requirement:

Firmware Version	Date	Model	Hardware Version
V1.01.22	2022/01/20	DCS-4618EK	A1
V1.00.14	2021/01/11	DCS-4618EK	A1

Upgrading Instructions:

Check and upgrade firmware by FOTA function

1. Assure to connect camera with Internet.
2. Assure the time and date setting is correct.
3. Log-in camera web UI and entry **Setup/Advanced Setup/Camera Configuration/Firmware Upgrade**.
 - (1) Click [Check for Latest Version] and execute [Update Now] to upgrade firmware manually.
 - (2) Enable [Auto Check for Latest Version] or [Auto Update] and set the schedule to check/upgrade firmware automatically.

Upgrade firmware manually

1. Download the firmware from D-Link website.
2. Log-in camera web UI and enter **Setup/Advanced Setup/Camera Configuration/Firmware Upgrade**
3. Click [Browse] and specify the firmware file.
4. Click [Upload] to upgrade the firmware.

The camera will reboot automatically when the upgrade completes.

New Features:

Fireware Version	New Features
V1.01.22	Add Backup and export config function.
V1.00.14	Initial release

Problems Fixed:

Firmware Version	Problems Fixed
V1.01.22	1. Fix issue HQ2021071300000:When reset to default, some of the camera config, such as camera alarm log & operation log, is not reset. 2. Fix issue DUSA20210826000002:Fix Primary IP address DHCP value is not correct.

Known Issues:

Firmware Version	Known Issues
V1.01.22	1. Some image parameter values are displayed incorrectly, such as brightness and contrast, but the functionality works well. 2. Web UI has an "SSL control Port" setting, and it should hide.
V1.00.14	N/A
